*Kari and Keira Lyn Parker, the wife and daughter of local educator and baseball coach Matt Parker, lost their lives in an automobile accident on 6/28/07. Kari was a local teacher in this community for 10 years and had a profound impact on thousands of teenagers in her classes. Keira Lyn was the shining light of her parents Kari and Matt. This walk is but one of many endeavors that the foundation has scheduled to raise funds. Our foundation's mission is simple; it is to raise funds to give back to kids of all ages to assist in their education when the mountains of life are too hard to climb and overcome. The direction of our plan is to give away scholarships and grants to the communities we have lived in, worked in, and placed roots. **This year we have given back over \$ 26, 000 dollars to well deserving groups, programs, and individuals.** With your help and monetary assistance- YOU can make a difference in a child's life today- the impact will be felt in the communities we live. Please join us on that day- visit our website, www.2k4kids.org to download a registration and sponsor form. (Registration fee: \$25)*
